Objective

Recent computer science graduate with a passion for developing scalable web applications and working across full stack. I am looking to join a team to continue to grow my skill set while contributing to the positive outcome of making people "richer, smarter and happier".

Education

SSLD Varshney Engineering College

August 2019 - June 2023

Bachelor of Technology in Computer Science and Engineering

Aligarh, UP

- Current CGPA: **8.25**
- **Relevant Coursework:** Data Structures and Algorithms, OOP's, DBMS, OS, Computer Networks etc.

Three Dots Sewamarg Public School

August 2018

*Completed Class 12th (with **90.2%**) and Class 10th (with **CGPA 10**)*

Aligarh, UP

Technical Skills

Languages: C/C++, HTML5, CSS3, JavaScript (ES6+)

Frameworks/Libraries: Bootstrap, React Js, Material UI, Tailwind CSS, Node Js

Web Technologies: AJAX, JSON and RESTful APIs, Fetch API, DOM Manipulation

Databases: MongoDB, MySQL

Other Tools: Git, Github

Extra skills: Good understanding of 2d and 3d designing softwares like CorelDRAW, SolidWorks etc

Projects

Realtime Chat Application | *React Js, Material UI, Node js* | <https://github.com/vsharma04/realtime-chat-application>

- Developed a real-time messaging system that allowed for instant message delivery and seamless chat experiences.
- Collaborated with UI/UX designers to create a user-friendly and visually appealing interface.
- Designed and implemented the application's architecture, enabling real-time communication through WebSockets.
- Integrated user authentication and authorization, ensuring secure access to chat rooms and user data.

Notes Application | *HTML, CSS, Js, Bootstrap* | <https://github.com/vsharma04/Notes-app>

- An interactive interface that will provide a way to store and delete the notes on the basis of title and content provided by the user.
- A search functionality is provided that allows the user to find out all the matching results related to the keyword entered by the user.
- Bootstrap that is a well known CSS framework for developing responsive design is used for styling the components in the application.

Certifications and Achievements

- Fundamental of Digital Marketing Course, Google Digital Garage
- CSS and Js Course, Udemy
- Developer Virtual Experience Program, Forage in Collaboration with Accenture
- Artificial Intelligence Virtual Experience Program, Forage in collaboration with Cognizant
- Successfully solved over 100 algorithmic and data structure challenges on LeetCode, demonstrating a good grasp of computer science concepts and problem-solving skills.
